Ese Gbenmo

SUMMARY

Full-Stack Developer with 4+ years of professional experience building scalable web applications using TypeScript, JavaScript, React, and Node.js. Proficient in Python for backend and data-adjacent workflows, with solid experience in PostgreSQL, data modelling, and API development. Currently contributing to payroll and HR platforms at Salariopay, delivering clean, production-ready code across the full stack. Comfortable working independently in remote environments, and eager to contribute to analytics and AI-adjacent systems.

SKILLS

Technologies: React | TypeScript | JavaScript | Node Js | Flask | Tailwind CSS | jQuery | Next js | Payload CMS | SQL (PostgreSQL/PL/pgSQL) | Supabase.

Skills: API Integration | Responsive Design | Version Control | UI/UX Development | Adaptability to new technologies | REST APIs | Data Modelling | SQL Query Optimisation.

PROFESSIONAL EXPERIENCE

Frontend Engineer – Udala Solutions

Dec 2024 – Present

- Built and maintained scalable frontend solutions for multiple client products, including a lottery system and a media streaming platform.
- Developed responsive, user-friendly interfaces to improve usability and engagement across web applications.
- Implemented core frontend features independently, ensuring smooth user flows and reliable performance.
- Collaborated with cross-functional teams to translate product requirements into clean, functional UI components.
- Technologies: React | TypeScript | JavaScript | HTML | CSS

Frontend Engineer - Salariopay

June 2024 – Present

- Currently working at Salariopay, building and maintaining user-facing features for the company's payroll and HR tools.
- Led the development of the Integration Marketplace, enabling users to explore and connect with

third-party HR and finance tools.

- Collaborated closely with designers and backend engineers to deliver pixel-perfect, high-performance interfaces.
- Ensured seamless API integration, accessibility, and responsive design across devices.

Technologies: React, Redux, TypeScript, JavaScript, Tailwind CSS, jQuery

Software Developer - Metro Health HMO

Jan 2022 - June 2024

- Built a core in-house software to streamline operations and improve business workflow
- Developed an HR onboarding system to digitize and simplify employee intake
- Collaborated with cross-functional teams to deliver scalable, user-friendly solutions

Technologies: JavaScript | TypeScript | React | Nodejs | Nextjs

OTHER NOTABLE PROJECTS

Tamsey Finance Inc: *(Bank Landing Page Experience)*

A sleek, 30-page React site guiding users through the Bank's business banking, loans, savings, investments, and digital payments with clear CTAs and seamless, responsive navigation.

Tech Stack: React · JavaScript · HTML5 · CSS3 · Flask

Status: Completed

Live Demo: <https://brookfield-project.vercel.app/>

Leewo Jones: *(A storefront for photographers to sell their work)*

A coming-soon e-commerce platform where photographers can upload, price, and sell high-resolution images directly to customers via secure checkout and licensing options.

Tech Stack: React · JavaScript · HTML5 · CSS3 · Golang

Status: MVP phase — core gallery, cart, and licensing flows are live; next up: user profiles, payment integration, and admin dashboard.

Live Demo: <https://leewo-jones.vercel.app/>

EDUCATION

Miva University: Bsc Computer science -

2024 - Present

British Computer Society: Certificate in IT (BCS Level) -

October 2024

Yaba College of Technology: OND in Science Laboratory Technology (Distinction) - June 2023
